DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-7 are generally narrative, mixing positively recited structure with functional language such that is not clear what exactly should be given patentable weight. For clarity and readability, the examiner suggests re-writing claims 1-7 in accordance with 37 CFR 1.75(i).

In claims 1 and 5, the phrase "[I]n section in a longitudinal direction thereof formed at least at a portion in the longitudinal direction" is awkward and it is unclear what is being claimed. Further, there is no reference frame established for the "longitudinal direction".

In claim 5, the "circulation passage" is defined in line 18 of page 19, and then redefined in line 24 of page 19. It is unclear what definition of "circulation passage" applicant is intending to claim. It appears as if the definition may be repetitive, if this is the case, the second recitation should be removed.

Allowable Subject Matter

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
